Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This turn-of-the-century house faces northeast onto Maryland Route 765. Set on a new brick foundation, it is a three-bay, two-story side-passage-parlor house with a central brick chimney and decoratively pressed sheet metal on the gable roof. The main doorway is sidelighted and transomed. The windows are glazed with new one-over-one double-hung sash. The north gable-end wall has clipped corners with windows in each face. There is a rear two-story ell with a one-story shed-roofed extension. The front of the house is sheltered by a one-story hipped-roof porch supported by tapering Doric columns. On the south end, this porch abutts a one-story enclosed porch or sun room. The front-facing gable over the facade of this house and the side facing gable ends are covered with diamond-shaped wood shingles. Elsewhere, the original weatherboarding of the house has been replaced with new siding. The house was remodeled in 1986 for use as building and contracting offices.
